Strengthening Your CSR Impact Story with a Program Outcomes Framework

August 9, 2017
Agenda

I. Welcome and Introductions

II. A Framework for Corporate Citizenship

III. Case Study – Symantec

   Framework
   Goal Development
   Stakeholder Engagement
   Outcomes Framework
   Data Prioritization

IV. Summary Overview
I. Welcome and Introductions
Who We Are

Lisa Frantzen
Senior Evaluation Consultant

Tom Knowlton
Partner & Director of Corporate Services

Susan Wolfson
Director, Strategic Communications & Stakeholder Engagement
At TCC Group, we are committed to addressing complex social problems by heightening our clients’ understanding of their collaborative role in society and helping them strengthen strategy, build capacity, and advance assessment and evaluative learning.

We partner with companies and foundations to help design and develop their strategic approach.

Our knowledge and expertise in the social impact sector helps our clients create high impact strategies and programs addressing a range of important issues.
II. A Framework for Corporate Citizenship
TCC’s Corporate Citizenship Framework

Purpose and Values

- Operations
- Products & Services
- Community
## TCC’s Corporate Citizenship Framework

III. Case Study: Symantec
Framework
“Symantec is the global leader in cyber security. What we do, at Symantec, is not just a job – it’s a calling, demonstrated by our mission to keep the world’s information safe and reflecting our fundamental commitment to make the world a better place.

While the threat to information grows exponentially, there is a real shortage of qualified candidates to join the fight against cybercriminals. For the past two years, we have fostered the talents of young adults – including people of color, women and veterans to help fill the workforce gap in cyber security.”

Greg Clark, CEO
Symantec
# Symantec’s Corporate Citizenship Priorities

The following priorities were identified through a materiality analysis and based on the Global Reporting Initiative’s (GRI) Principles for defining report content.

<table>
<thead>
<tr>
<th>Priority Issue</th>
<th>Related Business Objective</th>
</tr>
</thead>
<tbody>
<tr>
<td>Talent and Culture</td>
<td>Develop and maintain a skilled, diverse, and talented global workforce, and cultivate high levels of engagement and loyalty by providing opportunities for personal and professional growth</td>
</tr>
<tr>
<td>Diversity and Inclusion</td>
<td>Grow technology talent pipeline, attract and retain the best talent available, create a culture where diverse talent can thrive and innovate, and better understand and serve our diverse global markets</td>
</tr>
<tr>
<td>Securing Information</td>
<td>Provide software and services that protect and secure our customer’s data where it lives and help to address the cyber security workforce development gap through the Symantec Cyber Career Connection program</td>
</tr>
<tr>
<td>Customer Satisfaction</td>
<td>Engender customer loyalty through continuous improvements in our internal customer satisfaction metrics and customer retention</td>
</tr>
<tr>
<td>Energy and Greenhouse Gases (GHGs)</td>
<td>Minimize the environmental footprint of Symantec and our customers</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Important Issue</th>
<th>Related Business Objective</th>
</tr>
</thead>
<tbody>
<tr>
<td>Philanthropy and Community Engagement</td>
<td>Enhance employee connection to the company, to each other, and to their own career, and serve as a tool to support business goals related to the priority issues above</td>
</tr>
</tbody>
</table>
Mission
Help businesses harness the power of their information and make the digital world safer

Goal Development
Symantec’s Issues and Programs

Our People
Provide a work culture that supports professional training and development, fosters workplace inclusion and equality, and cultivates employee fulfillment.

Diversity & Inclusion
Retention

Your Information
Partner with customers, government agencies, communities and families to protect individuals and their information and ensure confidence in the online experience.

Cybersecurity Training
Online Safety

The World
We remain committed to conducting our business in an environmentally sound manner, upholding ethical and social standards in our company and supply chain and contributing to communities where we live and work.

Environmental Stewardship
Supply Chain
Community Investment
Our People

Diversity & Inclusion

Increase diversity of workforce at all levels by 15% by 2020 (and support subgoals such as 30% women in leadership)

- Partner with and support HR in a focused effort to attract, develop and retain women
- Expand and improve the ERG’s impact on the business
- Add a more comprehensive disability and veterans focus to our D&I programming
- Improve our EEO/AA compliance program and processes (including talent tracking and reporting mechanisms), and leverage more fully to support our overall D&I effort

Diversity & Inclusion Revised Goals

Increase diversity of workforce at all levels by 15% by 2020 (and support subgoals such as 30% women in leadership)

Pipeline - Increase diversity of pipeline to attract more women, underrepresented minorities, LGBTQ, veterans and individuals with disabilities

Community - Strengthen reputation in the community as a company supporting diversity
Diversity & Inclusion
Revised Goals

Increase diversity of workforce at all levels by 15% by 2020 (and support subgoals such as 30% women in leadership)

**Pipeline** - Increase diversity of pipeline to attract more women, underrepresented minorities, LGBTQ, veterans and individuals with disabilities

**Community** - Strengthen reputation in the community as a company supporting diversity

Role of Philanthropy

Support diversity goals through the following programs/activities:

**Workforce** – Assist inclusion efforts by providing support for ERGs and their efforts to support/fund relevant organizations

**Pipeline** – Build pipeline through engaging students and training diverse populations to be cybersecurity professionals

**Community** – Reinforce reputation as diverse employer by supporting organizations advocating for and supporting diverse populations in the technology industry.
Cybersecurity Training

Excite, engage and educate 1 million students in STEM education through global nonprofit partnerships, with an emphasis on computer science and cybersecurity, by 2020 with an investment of $20 million.

Phase 1 – Excite: Introduce students to cybersecurity and computer science

Phase 2 – Recruit, Train and Certify: Trainings

Phase 3 – Prepare for Jobs: Internships

Phase 4 – Launch Careers: Job placement support services

Cybersecurity Training

Revised Goals

Increase diversity in the cybersecurity industry by engaging and training underrepresented minorities, women and veterans.

Goal 1 – Engage Diverse Students in Cybersecurity

Raise awareness of long-term career opportunities in cybersecurity

Goal 2 – Launch Diverse Populations in Cybersecurity Careers

Provide training, support and access to cybersecurity careers
Cybersecurity Training
Revised Goals

Increase diversity in the cybersecurity industry by engaging and training underrepresented minorities, women and veterans.

Goal 1 – Engage Diverse Students in Cybersecurity
Raise awareness of long-term career opportunities in cybersecurity by:
- Identifying nonprofits providing in-school and afterschool cybersecurity training/education programs
- Mobilizing employees to volunteer in schools reaching diverse populations

TBD:
- Potential scope and reach based on: existing nonprofits with relevant programs; potential employee volunteers

Goal 2 – Launch Diverse Populations in Cybersecurity Careers
Provide training, support and access to cybersecurity careers by:
- Recruiting and training underrepresented minorities, women and veterans
- Developing industry coalition committed to hiring trainees and providing internships and mentoring support

TBD:
- Potential scope and reach based on existing nonprofits with relevant training programs; potential role of community colleges; coalition development

Philanthropy Approach

Goal 1 – Increase # of Diverse Students Pursuing Studies in Cybersecurity
Raise awareness of long-term career opportunities in cybersecurity by:
- Identifying nonprofits providing in-school and afterschool cybersecurity training/education programs
- Mobilizing employees to volunteer in schools reaching diverse populations

Goal 2 – Increase # of Diverse Individuals Launching Cybersecurity Careers
Provide training, support and access to cybersecurity careers by:
- Recruiting and training underrepresented minorities, women and veterans
- Developing industry coalition committed to hiring trainees and providing internships and mentoring support

TBD:
- Potential scope and reach based on existing nonprofits with relevant training programs; potential role of community colleges; coalition development
Your Information

Goal 1 – Increase # of Diverse Students Pursuing Studies in Cybersecurity
Raise awareness of long-term career opportunities in cybersecurity, with a focus on reaching underrepresented minorities

Approach: Reach/educate diverse students in underserved communities with information about cybersecurity careers; build employee engagement component where possible.
   • Partner with national nonprofit capable of reaching students. Selection criteria include:
     • Experience working in schools or after school programs, middle school age and older
     • Primary focus on reaching minorities and underserved communities
     • Ability to organize volunteers where appropriate
     • Reach aligns with Symantec employee locations
     • Experience/knowledge in STEM and technology preferred
Goal 2 – Increase # of Diverse Individuals Launching Cybersecurity Careers
Provide training, support and access to cybersecurity careers

Approach: Recruit, train and provide support and access to cybersecurity careers for underrepresented minorities, women and veterans
   • Training Program – Identify nonprofits and community colleges capable of meeting training standards and reaching target audiences
   • Career Access Program
     • Develop industry coalition committed to hiring trainees and providing internships and mentoring support.
       • Coalition members agree to minimum hiring requirements as well as providing support to training partners
Clarifying Your Goals - Process

Develop Draft Framework
- Is there a framework in place?
- How would you define your pillars and issue areas?

Determine Accountability for Issue Goals
- Which goals are you accountable for?
- Where can you play a supporting and/or partnering role?

Determine Stakeholders Needed to Develop Goals
- Identify stakeholders to be involved based on roles and value
- Develop process to gather information and feedback

Develop Your Goals
- Determine social impact expectations for priority stakeholders influencing goal (existing research; surveys; focus groups)
- Apply stakeholder inputs to shape and support goals
- Develop realistic goals taking into consideration budget and resource availability (internal and external), company and leadership commitment
Stakeholder Engagement
Goals Serve Different Purposes At Different Times

- Demonstrate or Amplify a Commitment
- Differentiate from Competitors
- Inform Strategic Programming for Business and/or Social Impact
- Support Expansion when Entering New Business Space
Key Elements of Successful Stakeholder Engagement: Goal Development

- Identify roles & expectations
- Determine methods of engagement
- Develop a framework
- Determine indicators
- Integrate your goal(s)
- Articulate messengers and messages
- Amplify the value

Internal

</tbody>
</table>
Outcomes Framework
What is an Outcomes Framework?

A framework that clearly maps out the desired benefits (outcomes) that the initiative/program is trying to achieve, the causal links to achieving those outcomes, and the measurements that will be used to assess progress towards the end goal.
Why do we use an Outcomes Framework?

- **Clarify** our strategy and desired outcomes
- **Test** a series of **hypotheses** or working assumptions about our program
- **Learn** about the program and **refine its design** and activities
- **Understand** **which partners** make the best fit for achieving our goals
- **Show the value** of the work to internal stakeholders
- **Tell the story** of the work
Components of an Outcomes Framework

**Logic Model/ Theory of Change**
A systematic and visual way to present relationships among the **resources** you have to operate your program, the **activities** you plan to do, and the **changes** or results you hope to achieve.

**Set of Core Indicators**
Data which provide an **indication of performance** in terms of an agreed vision of success.
Building a Logic Model

*Start with your goal.*

Cybersecurity Training Program Goal 1 Logic Model

Impact

*Increased number of diverse students* pursuing additional classes/activities related to cybersecurity

*Diverse students = underrepresented minorities and girls, ages 10-18*
Building a Logic Model

*Then build the logical sequence of outcomes that must occur to reach your goal.*

*Symantec*

Cybersecurity Training Program Goal 1 Logic Model

<table>
<thead>
<tr>
<th>Short-term Outcomes</th>
<th>Medium-term Outcomes</th>
<th>Long-term Outcomes</th>
<th>Impact</th>
</tr>
</thead>
<tbody>
<tr>
<td>Increased awareness of cybersecurity concepts</td>
<td>Increased interest in cybersecurity concepts and careers</td>
<td>Increased awareness of how to pursue their interest in cybersecurity concepts</td>
<td>Increased number of diverse students* pursuing additional classes/activities related to cybersecurity</td>
</tr>
<tr>
<td>Increased awareness of cybersecurity career options</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

* *Diverse students = underrepresented minorities and girls, ages 10-18*
Building a Logic Model

Now think about the types of interventions that will help create these initial desired changes.
Building a Logic Model

Finally, add in the investments that you will make to support these interventions.

*Adapted from a Logic Model created by Symantec.*

**Symantec**
- **Inputs:**
  - Staff
  - Funding
  - Partners
  - Employee Volunteers

**Activities**
- Curriculum development & implementation
- Career presentation/talks

**Short-term Outcomes**
- Increased awareness of cybersecurity concepts
- Increased awareness of cybersecurity career options

**Medium-term Outcomes**
- Increased interest in cybersecurity concepts and careers

**Long-term Outcomes**
- Increased awareness of how to pursue their interest in cybersecurity concepts

**Impact**
- Increased number of diverse students* pursuing additional classes/activities related to cybersecurity

*Underrepresented minorities and girls, ages 10-18*
You may have more than one logic model if your goals vary or if your target populations are different.
Considerations for Logic Model Development

- Work with internal stakeholders
- Work with grantees or external partners
- Build on existing evidence
- You can have more than one logic model
- Logic models are not meant to be static
Prioritizing Data Collection
Your Wishlist

What is one type of data that you wish you had?

With which audience would you share that data?
Prioritize sections of the logic model according to:

- Importance
- Feasibility to collect data
- Usability
## Developing Your Core Indicators & Data Collection Plan

<table>
<thead>
<tr>
<th>Indicator</th>
<th>Data Source</th>
<th>Timeframe for Collection</th>
</tr>
</thead>
<tbody>
<tr>
<td>% of participants who apply the cybersecurity skills in a job setting</td>
<td>Salesforce</td>
<td>Annually</td>
</tr>
<tr>
<td>Narrative description of participants’ experiences</td>
<td>Student interviews or survey</td>
<td>Annually</td>
</tr>
</tbody>
</table>

### Diagram

- **Symantec**
- **Cybersecurity Training Program Goal 2 Logic Model**
- **Inputs**
  - Increased awareness of cybersecurity careers
- **Activities**
  - Classroom training
  - Internships
  - Mentors
  - Assessment of graduates' professional level skills
- **Short-term Outcomes**
  - Increased knowledge of cybersecurity
  - On-the-job cybersecurity experiences
  - See themselves in a cybersecurity career
- **Medium-term Outcomes**
  - Increased skills in cybersecurity
  - Increased motivation to pursue a cybersecurity career
- **Long-term Outcomes**
  - Have professional level cybersecurity skills
- **Impact**
  - Increased number of diverse individuals who are qualified and employed cybersecurity professionals
  - More diverse teams

*Diventive individuals = underrepresented minorities, women, and veterans*
Considerations for Developing a Set of Core Indicators

- Can be aggregated across grantees
- Give a strong indication of outcome achievement
- Can be mix of qualitative and quantitative
- Integrate stakeholders where possible
Key Takeaways

Framework & Goal Development

- Identify where your corporate citizenship programs can align with and support the company’s business goals.
- Refine your program goal to clarify the value your program is bringing to the company goal.

Stakeholder Engagement

- Stakeholder engagement is complex, nuanced, essential, and in the best of all worlds, ongoing.
- Internal engagement for optimal goal-setting strengthens your framework to tell your story internally and externally.
- Ask the right questions early and often.

Outcomes Framework

- Build out a logic model map that will show how you’re going to reach your program goal.
- Work with key stakeholders to prioritize indicators that will assess progress towards the goal.
